Paper Title: Loss Evaluation of Distribution Transformers in Iran

Ali Arzani
Semnan University
Iran

Congratulations! It is our pleasure to inform you that the above mentioned paper has been accepted for presentation at the ICSET 2008 - IEEE International Conference on Sustainable Energy Technologies to be held in Singapore from 24th – 27th November 2008 and also accepted for publication. We cordially invite you to attend the conference and to present your paper.

The proceedings of the conference will be included in the IEEEExplore digital library and indexed by EI. Approximately 20% of the conference papers will be selected to be considered for the publication in the IEEE Transactions on Industry Applications.

All papers must be re-submitted electronically in their final form in PDF format. Please prepare your final paper according to the IEEE paper template given on the conference web page since the submission system checks the final version very strictly. In order to help you in the submission of a properly formatted paper, a link to the IEEE PDF eXpress service is available on the instruction web page under the final paper submission. Each paper is allowed maximum 6 pages in the conference proceedings. Over-length papers will be truncated.

Please be aware that inclusion of your paper in the conference proceedings is only possible if the following items

- Final paper in PDF format (IEEEExplore compatible) for the CDROM proceedings;
 - A 150 to 250 words abstract to be included in the programme book;
 - The IEEE Copyright form;
- (For the above 3 items, please submit through the on-line submission at www.ieee-icset.org from 10 September 2008 onwards)
- Registration and payment

reach us by 30th September 2008 the latest.

For each paper, at least one author has to register for the conference by 30th September 2008 (by full registration). Otherwise, the paper will not be included in the final CD-ROM proceedings and IEEE Digital Library. Please also note that authors who intend to present more than one paper at the conference must pay additional registration fees. Registration forms will be available

on the conference web-site www.ieee-icset.org after 10 September 2008 for your use.

Please check the presentation type of your paper on the website – either oral or poster dialogue session – closer to the conference date when the technical programme is finalised.

Accommodation information is available on the website www.ieee-icset.org and authors are encouraged to book early.

We would like to inform you that “Integrated Meeting Specialists Pte. Ltd.” the company providing the conference secretariat services for our conference has withdrawn their support since 6th August 2008 and they no longer provided the conference secretariat services. It is therefore we had delays in getting the paper review done and in sending the acceptance letter.

We have also updated the web-site domain address. Please take note of the new conference web-site is at <http://www.ieee-icset.org>. The old web site at <http://www.icset2008.org> is no longer in use and will be shutdown soon after the transition period. For all enquiries on paper publication, please send to elesahoo@nus.edu.sg or reply to this e-mail.

Once again I would like to apologize for the inconvenience caused to you due to the delay in sending the notification of the paper review status and look forward to your active participate in the conference in Singapore.

Sincerely yours,

Sanjib Kumar Panda
IEEE ICSET2008 General Chairman
