Ärende

Hösten 2011 har ICT-skolan ledigförklarat två excellenstjänster för postdoc.

En urvalskommitté har utvärderat ansökningarna och föreslår två kandidater som lämpliga för de utannonserade excellenstjänsterna.

Beslut

Skolchefen vid Skolan för informations- och kommunikationsteknik har beslutat att följa utvalskommitténs förslag och beslutar att nedanstående personer utses som postdoc på excellenstjänst vid ICT-skolan.

Fernando Herrera Casanueva
Sang-Wook Han

Urvalskommitténs protokoll finns som bilaga till detta beslut.

Vid protokollet

Gun Hjertsson

Protocol

The Selection Committee meeting for recommending candidates for two Excellence Postdoc Positions (I-2011-0646) and two Excellence Positions for Graduate Studies (I-2011-0645) at the ICT-school, KTH

The selection committee meeting was held in Kista on March 23 at 1-3 pm.

Members present: Carl Gustaf Jansson (Chairman), Elena Dubrova and Alf Thomas Sjöland. Gunnar Malm was absent but had submitted his individual evaluations of the candidates prior to the meeting and was consulted on phone in conjunction with the meeting.

Selection of candidates for the two post doc positions

Twenty applications for the Postdoc positions have been received. The committee members' individual evaluations of the candidates were compared. A short list of the most highly ranked candidates was formed. The remaining candidates were discussed in detail. The main criteria for selection considered, was the applicants' publication records. For candidates with comparable publication records, the school's ambition to support younger faculty was also taken into consideration.

The following two candidates were recommended (not ordered):

Fernando Herrera Casanueva
Sang-wook Han

Selection of candidates for two PhD positions

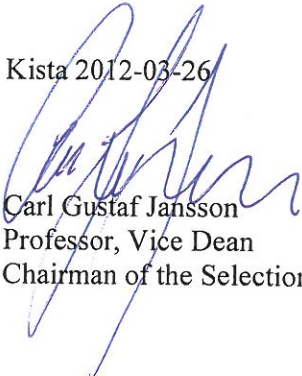

Thirty six applications for the PhD positions have been received. The committee members' individual evaluations of the candidates were compared. A short list of the most highly ranked candidates was formed. The remaining candidates were discussed in detail. The main criteria for selection considered, was the judged quality of the course grades for courses on basic and advanced level.

The following two candidates were recommended (not ordered):

Andersson David Smith
Ruslan Momot

As the applications are accompanied by recommendations from ICT-school faculty members who will be the closest colleagues or supervisors it was not judged necessary to have interviews with the recommended candidates.
