Matroids in Boston

Northeastern University
Sept 11 - Sept 15, 2017

We organize a Thematic Week on Matroid Theory and related topics.
All seminars, unless stated otherwise, are in Room 509 Lake Hall.

Sept 11, 11:45 – Alex Fink
Geometry, Algebra, Singularities, Combinatorics (GASC) seminar
Matroids (of modules) over rings and their structure

Sept 12, 16:00 – Ivan Martino – *Room 544 Nightingale*
Pick My Brain seminar
Algebraic Structures related to Matroid Theory

Sept 13, 16:15 – Alex Suciu
Graduate Lecture
Resonance varieties for matroids

Sept 14, 16:00 – Pablo Soberón
Graduate Lecture
Holmsen's version of the colorful Caratheodory theorem for oriented matroids

Sept 15, 14:00 – PhD Student talks
Reuven Hodges
Straightening fillings of Young diagrams

Finn Prideaux
Identifying families of cyclic flats

Rahul Singh
Conformal variety of the Schubert divisor in type A

ORGANIZER
Ivan Martino – Northeastern University
